Reservations are suggested for lunch and required for dinner, and may be made on the Club's app/website or by contacting the Front Desk at 503.654.6521. Guests are welcome for lunch and dinner.

Message from the Women's Board of Governors President Nancy Herpers

Soon your Waverley Women's Board will transition! Bridget Otto, the current Women's Board of Governors Vice

President, will become the 2022-2023 President. Her Board will be composed of some returning faces as well as some new faces! This transpires at the Women's Annual Meeting, Golf, and Luncheon on October 25. The day begins with coffee and treats at the Field House, and a 9:15 am shotgun start for 9-holes. The Annual Meeting begins with lunch at noon, followed by the meeting at 12:45 pm. The new slate of officers will be formally elected at the Annual Meeting. You will receive an invitation soon, and I encourage you to attend as it is a great way to see the Women of Waverley at work! Please join me in congratulating the incoming Board at the Annual Meeting!

I have had a wonderful term as WBOG President - for two reasons! First, Waverley is a great Club with a supportive staff. Second, the 2021 - 2022 Women's Board was the finest! Enthusiasm, cooperation, and organization abounded. This group of women worked hard and creatively to benefit the membership. I thank them and have loved working with each of them!

Message from the COO/General Manager Christian Thon

Many members may not know that the Club's fiscal and Board year starts on October 1, so we are now off to a new

year with a new budget and a new group of dedicated members serving on the Board of Directors. I want to thank the three outgoing Board members for their support over the last 12 months.

Mr. Jeff Jorgenson, the Chair of the House Committee, has been a stellar Committee leader, and I truly enjoyed getting to know him. There are few nicer people around than Mr. Jorgenson, and for those who know him, I know you would agree.

Mr. Bill Swindells, Chairman of the Green Committee, never wavered in his pursuit of a better golf course, and his constant support and trust for the staff was well known and very much appreciated. Thank you, Mr. Swindells, for all of your hard work.

And, of course, Mrs. Linda Williams, the outgoing President. I can't say enough about her. Her leadership on the Board, intelligence, sense of humor, and concern for all members and

staff were unrivaled. I am grateful for the opportunity to have served under her. I will miss working with her regularly, and I am thankful for the lessons learned over the last year.

As I write this article, we still have two weeks until the Annual Meeting, so the question of "who will be the next President?" remains unanswered; I know that any of the three senior class candidates will become a great President for Waverley. I look forward to another successful year working with the Board and the Club's leadership.

I'm delighted to share with you three additions to our Senior Staff. Mindy Becker, Human Resources Director, Kathy Jennings, Controller, and Kathryn Connell, Executive Assistant. These individuals all come to Waverley with a wealth of experience and knowledge in their respective fields and have already made significant contributions to the team. So when you see them around the Club, please say hello!

COVID is thankfully in the rear-view mirror. Ahead of us is an excellent and positive future where Waverley continues to thrive and excel. I hope you will join me on the journey.

PGA Head Golf Professional Jim Schaeffer

It's that time of year when the weather is starting to change, and we won't see as many golfers out on the course. However, we are excited to have our simulator ready for those who still want to work on your game during the cooler months ahead.

There are a few different uses of the simulator that can help your game. First, of course, is the ability to play courses that you might not have yet visited. The other way to improve your game is to take a lesson with the video cameras set up in the room. We can video your swing, draw some lines and graphics, and give you ball and club data. There is no better way to discuss a golf swing than when you can view it in front of you and look at the data.

The simulator is also an excellent spot for a birthday party or just a few members having some fun playing a course and having a few drinks and appetizers.

Tournament Winners

Member-Spouse Tournament

Open Gross: Chuck and Teresa Gall

Tuesday, October 18
9:00 am Shotgun | Lunch to follow

Join us for the last day of the season with the traditional Punch Bowl Party to follow.

Sign up on the website or by calling the Field House.

Staff Highlight

Joel Bundy Bag Room Attendant

If you haven't had the chance to meet Joel, he is part of our Bag Room Staff. Joel grew up in Portland with a love of everything golf. He even enjoys reading about golf, as his subscription to Golf Digest is on auto-renew.

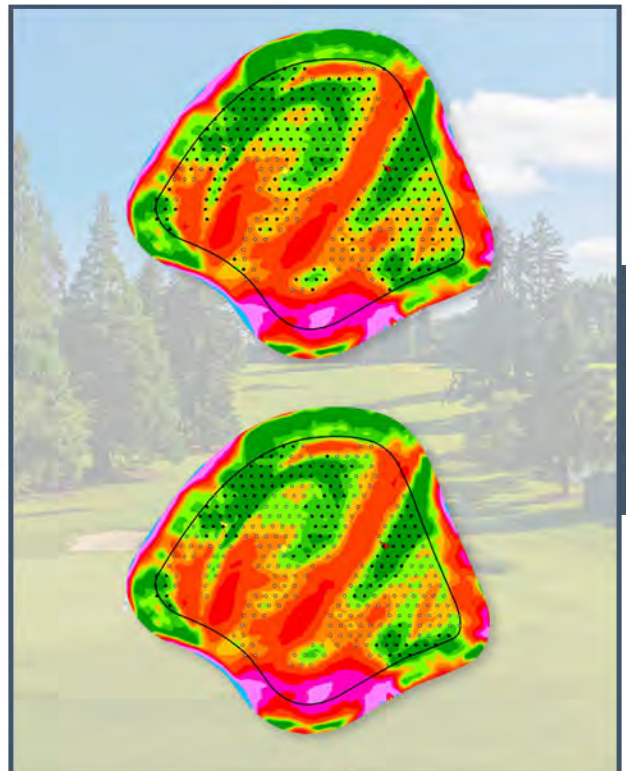

He has worked at Waverley for almost a year and consistently mentions that it's a pleasure to be at the Club each day. His friends say they haven't seen him this happy in years, and he thanks the members and staff for making him feel so welcome.

He just started watching Rings of Power, which is making him feel wonderfully nerdy. Comedy and Sci-Fi are his genres of choice when watching most media, and as you might have guessed, his favorite movie is Caddy Shack.

Green Superintendent Brian Koffler

Beginning in March and continuing through October, one of our daily tasks is changing hole locations. We perform this task Tuesday-Sunday, taking a day off each week for "Maintenance Monday." For November through February, we change hole locations based on the volume of play each day. For several years, we have been utilizing a program called EZ Locator to assist in selecting legitimate hole locations. To demonstrate the hole locations available at certain green speeds, see the two images showing #13 green at a stimpmeter reading of 10' on the top and 12' on the bottom. I have selected those two speeds as those would be typical in the middle of winter vs. the middle of summer. Any black dot is considered reasonable, and any dot in white is considered off-limits. While I chose #13 as a demonstration that eliminates several hole locations with increased green speeds, you can imagine this issue is prevalent on any green with severe internal contouring. From an agronomic standpoint, the advantage of spreading the hole locations as much as possible is that it spreads foot traffic, reducing soil compaction in heavily trafficked areas.
